

# Exotic Wood Veneers

Sky Valley offers more standard combinations of door styles, wood species and colors than most other cabinet companies, and our custom options give you unmatched flexibility. We also offer a number of "green" cabinetry options, and you can order it all with fixed lead times of as little as four weeks...

These unique wood species offer a range of grain patterns from mild, evenly colored English Sycamore, Quartered Cherry and Wenge to decidedly wild American Red Gum and Zebrawood.

We put a natural finish on each so that the full effect of natural variations in color, texture and grain may be appreciated.

Exotic Wood Veneers are offered in our Euro frameless line.

### Designing with American Red Gum

One of the more boldly patterned woods, Red Gum will range widely in color, too. Since this veneer is not "matched," every door and drawer front is likely to have a different color and grain pattern. Consider using ARG on select wall cabinets, or as an accent species.
