

HG Foil

Sky Valley offers more standard combinations of door styles, wood species and colors than most other cabinet companies, and our custom options give you unmatched flexibility. We also offer a number of "green" cabinetry options, and you can order it all with fixed lead times of as little as four weeks...

Create an ultra-contemporary kitchen with High Gloss (HG) Foil selections. From glossy wood grains and solid colors to options with subtle textures and striations, there's a style for any design. We've included some matte wood grains as well for further flexibility.

Door styles include both horizontal and vertical grains, in a range of modern looks from square-edged to slightly eased and a pillowed look. Visit our website to see all of the doors and foils available.

HG Foils are relatively easy to care for. Spills and spatters should be wiped promptly with a soft, damp cloth. Cleaning should be done with highly diluted (1:100) dish soap and water. Avoid abrasive cleaners or cleansers with ammonia, as they will cause permanent damage to the surface.

HG Foils are offered in our Euro frameless line.

HG Foils, whether matte or high gloss, pair well with metal doors and aluminum base structures (not shown).
