

TSS

Sky Valley offers more standard combinations of door styles, wood species and colors than most other cabinet companies, and our custom options give you unmatched flexibility. We also offer a number of "green" cabinetry options, and you can order it all with fixed lead times of as little as four weeks...

Thermo Structured Surface (TSS) features wood-grain decorative papers that are treated with melamine resins under heat and pressure. The resulting slab doors have a unique, textured surface with the feel of wood in a durable, easy to clean package.

Designers appreciate the flexibility of TSS products, and often mix two

or more finishes in a design, as seen above, or combine wood base cabinets with TSS uppers.

TSS is offered in our Euro (custom) and Katana (value) frameless lines in the five patterns at lower left. The Metro door, below, is available for Katana in Chestnut or Cypress.
