

## WHO WE ARE

Along with our parent, Canyon Creek Cabinet Company, Sky Valley Cabinetry is one of the nation's leading custom mid-priced cabinet manufacturers, and produces framed, inset and frameless style cabinetry for every room in the home. We have created one of the most extensive lines of cabinetry available, offering thousands of different combinations of door styles and finishes.

Our products include custom Framed and Euro frameless cabinets. Katana, a pared-down frameless cabinetry line, is designed to provide high-quality, entry-level product for today's price-competitive marketplace. Canyon Creek Closets Plus offers a wide range of components and accessories for storage and organization.

Started in 1981 as Cascade Cabinet Company, and renamed in 1995, we moved to our current 285,000 square-foot facility in Monroe, WA in 1997. Earning our ISO 9001 quality assurance certification in 2003, we are known for our quality, selection and dependable lead times.

Over the years Canyon Creek Cabinet Company has been recognized for our history of environmental stewardship, dating back to 1990. We have been a two-time recipient of the Washington State Governor's Award for Sustainable Practices and received a number of awards from the Association of Washington Business.

Sky Valley and Canyon Creek also contributes to and supports the social and economic development of our community in the following areas:

- Provides cabinetry for community housing and service projects
- Donates wood for local woodworkers to make toys for charities
- Provides CERT program training for employees to aid the community in the event of a disastrous event
- Since 2001, the company and our employees have supported an annual food drive to benefit the local food bank
- Recognized by the local Chamber of Commerce for our commitment to and support of the local business community

Canyon Creek Cabinet Company is committed to being a good corporate citizen and fully accepts our responsibility towards our employees, owners, and the community at large.
