Classic Whites

Responding to requests for a simplified palette, we worked with designers and our finish supplier to create a selection of whites that offered plenty of diversity without being overwhelming.

Anchored by our top-selling paints, White and Icing, the collection covers a range of warm to cool tones. You'll see hints of blue, grey, green and even peach, plus Creme, a nice bridge between white and yellow.

Creme with chocolate glaze | Cover: Icing

Summer Cloud
A hint of blue

Eggshell
A soft grey tone

Ivory
A soft, nearly pure white

Frosty
Matches our white laminate doors

Snowcap
Complements cool tones

White
Our #1 selling paint

Icing
Antique white

Creme
A soft, custard white

Grey & Black

With an ability to remain neutral while allowing stronger colors to shine, grey is a popular choice for walls, furniture and cabinets. Our grey paints were chosen to mix and match with other colors in the Curated Collection, or to complement any number of our wood stains. A rich, cool black is the perfect accent color for designs from traditional to modern.

Whether you're shopping for paint or stain, we strongly suggest ordering a sample door in the wood species and finish you're considering.

Neither these images nor the photos on our website can accurately represent the way the light in your home will react with a cabinet finish package.

Plus, selecting your wall paint, flooring, hardware and countertops is much easier with a physical cabinet sample!

Saturated Color

Cornsilk

Sand

Sage

Mojave

Granite

Olive

Breeze

Cardinal

Teal

Sangria

We've expanded our range of classic colors by going richer, warmer or brighter. The soft hues of Cornsilk, Sand and Sage go a few steps stronger and become Mojave, Granite and Olive, while the cool blue tones of Breeze and Cardinal get a shot of yellow to create vibrant Teal and Sangria.

As with all of our paints, these colors mix well within the Collection, or with any number of stains.
